

URGENT!

POINT DUME ALERT!

Your Safety and Quality of Life are Directly & Immediately Threatened.

See the attached letter which, received only yesterday, indicates that a **PUBLIC PARKING LOT** and **PUBLIC BEACH ACCESS IS BEING PLANNED** - perhaps effective this summer- in an environmentally sensitive area.

- ▶ The property owner, Wildman, to the east of Paradise Cove, has a public easement across his property. This owner wants to exchange his easement for an easement that will directly affect & impact Point Dume's famous unspoiled Malibu Riviera Beaches.
- ▶ Public Parking will be provided for 12 cars (plus the public can park innumerable cars on P.C.H. and also park on Zuma View.)
- ▶ There will be a direct beach trail to Malibu Riviera beach.
- ▶ This attached notice was only delivered to a portion of the local property owners on Zumirez Drive.
- ▶ The set meeting time to respond in person to this matter is **THIS TUESDAY, March 5th, at 3:00 pm** at the Point Dume Community Center (when all working people are at work.)

Please ACT IMMEDIATELY

Come to the Tuesday, March 5th Meeting at the Pt. Dume Community Center auditorium, 6955 Fernhill Malibu, 3:00 pm; if you can't come then send your attorney or someone to represent your views. Don't assume that your neighbor can represent you - we are seriously outnumbered and need every person at this meeting to stop this easement change.

If unable to attend, Fax your comments to Michael Fischer, Executive Officer, California State Coastal Conservancy, by Monday noon, March 4th. The FAX # is (510) 286-0470.

Please Protect what you have now and ACT!! This kind of political underhandedness is difficult to fight, and, when in place, impossible to reverse. One moment of apathy now, could loose Pt. Dume, as you know it, forever.

Point Dume Action Committee.
